### **300 words**

Nero TuneItUp PRO finds and fixes PC problems that slow you down! Nero TuneItUp PRO puts you back in control and lets you solve problems individually or repair them all at once. Get your PC back to speed and back in shape!

As anyone who's worked with Windows® for any period of time will know, it doesn't take long before your computer is running at a far from ideal speed. Nero TuneItUp ensures that even regular users can boot up their PCs up to 50% faster, optimize all system settings, and surf the web in more privacy. Just a simple click is all it takes to carry out tasks such as cleaning up junk files, deleting your Internet history and Recycle Bin contents, locating large files, and safely uninstalling unwanted programs. A high-speed mode also ensures that CPU intensive programs can be run with maximum performance.

Optimize your PC like a pro:

- Boot Windows® faster. Nero TuneItUp PRO simply switches off these unnecessary processes, meaning that your Windows will start faster than ever before!
- Surf the web faster with Chrome, Edge, Firefox, or Internet Explorer. Nero TuneItUp PRO analyses your Internet and browser settings and optimizes them with one click.
- Optimize your Windows® settings. Nero TuneItUp PRO can automatically optimize your settings and lets you quickly customize your Windows.
- Power-saving mode for longer battery life on laptops
- Scanning for outdated drivers and software with direct update downloads from a central database. Nero TuneItUp PRO searches its large database for driver and software updates, and installs them when necessary. Keeping your drivers and software up to date helps you close dangerous security gaps and lets you benefit from the latest functions and features.
