90 words

Nero Burning ROM 2018 burns, copies, rips, and protects your multimedia files from CDs, DVDs, and even Blu-ray Discs™* for the long term with unbeatable quality – and reliably blocks unwanted access thanks to the SecurDisc 4.0 technology with password protection and 256-bit encryption. Import disc images and rip and transcode audio CDs and files to almost any popular file format. Also included: original album art is just one click away thanks to integrated Gracenote® technology for your music CDs, songs on smartphones, and MP3s.

300 words

The industry leading burning specialist Nero Burning ROM 2018 burns, copies, rips, and protects your multimedia files from CDs, DVDs, and even Blu-ray Discs™* for the long term with unbeatable quality – and reliably blocks unwanted access thanks to the SecurDisc 4.0 technology with password protection and 256-bit encryption. Use up to 32 burners simultaneously for a variety of projects, create ISO images, and burn them together with video disc structures to new discs. Rip and transcode audio CDs and audio files to virtually all popular file formats and enrich the sound of audio CDs with automatic audio enhancement, various filters, and other adjustments. You can even burn files from smartphones or tablets using the companion Nero AirBurn App.

Creatively, the options are endless too: original album art for your MP3 CDs and DVDs for your car radio is just one click away thanks to the integrated Gracenote® technology. Furthermore, the Nero CoverDesigner and striking design and print templates ensure your burned creations look great.
